- iPad Case
- Keys
- Case connector
- Lock
- ① Tighten the screws on both sides after inserting the case connector.
- Base connector
- Base
- ② Tighten the 4pcs screw after inserting the base connector.

How to use the stand:

1 Case-lower / Case-upper

Place the stand on a flat surface, such as a table or counter.

2 iPad

Adjust the Case position and set it on the horizontal position. Open the Case-upper, and put the iPad into Case-lower correctly.
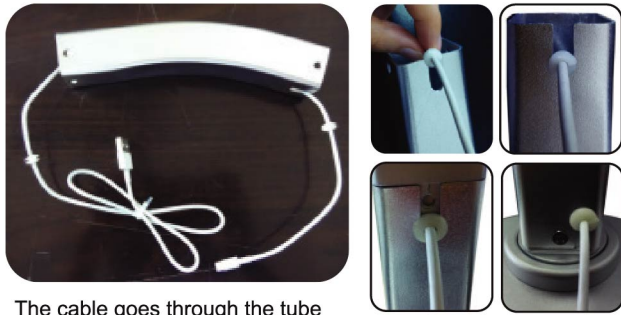

3 Lock the Case

Close the Case-upper, and then lock it with the key.

Cable protector
Protects cable threaded through the metal stand

Hook the protectors over the cable

The cable goes through the tube with protectors

Allign the protector so the incision is horizontal
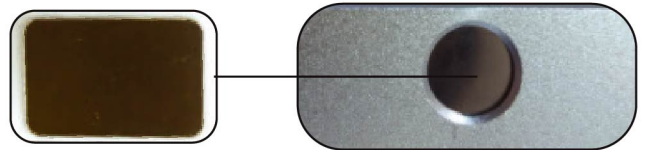

Set the protectors on the U-shaped opening
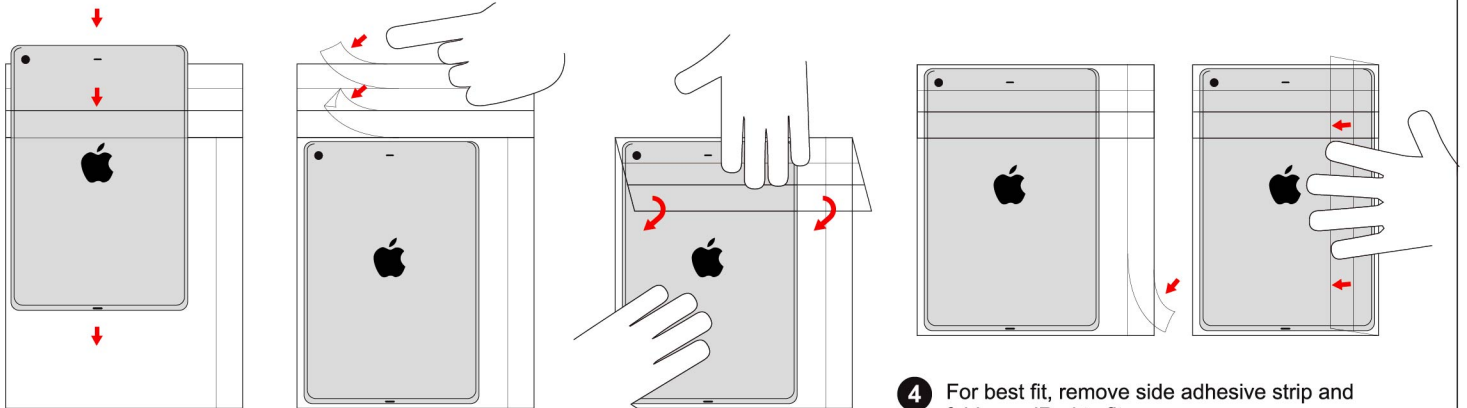

Optional accessories

Silicon pads with double-sided tape: attach the stand to the desktop

Metal piece to cover the "home" button: attached to the inside of the front tray

How to use the clear protective sleeves:

1 Insert iPad into clear protective sleeve with screen facing the back

2 Remove both adhesive strips from top flap on the front

3 Carefully fold flap over iPad to fit and tightly seal sleeve

4 For best fit, remove side adhesive strip and fold over iPad to fit

To remove iPad, carefully pull open adhesive seals and remove iPad. Protective sleeves can be resealed and easily wiped clean for reuse.

Remark: Please note the case is only suited for iPad 2 and iPad (3rd-4th generation). Compatible with iPad Air using adaptor pieces.
